How *your* money helps

It costs over £8 million each year to run Birmingham St Mary's Hospice.

That's £21,918 a day, £914 per hour and £16 every minute!

Did you know that less than 50% of our funding comes from NHS contracts

The difference *your* fundraising
can make....

£100

is the cost each year to provide toys and books for our children's room. These are used by our child bereavement counsellor to help the children explain and understand their feelings.

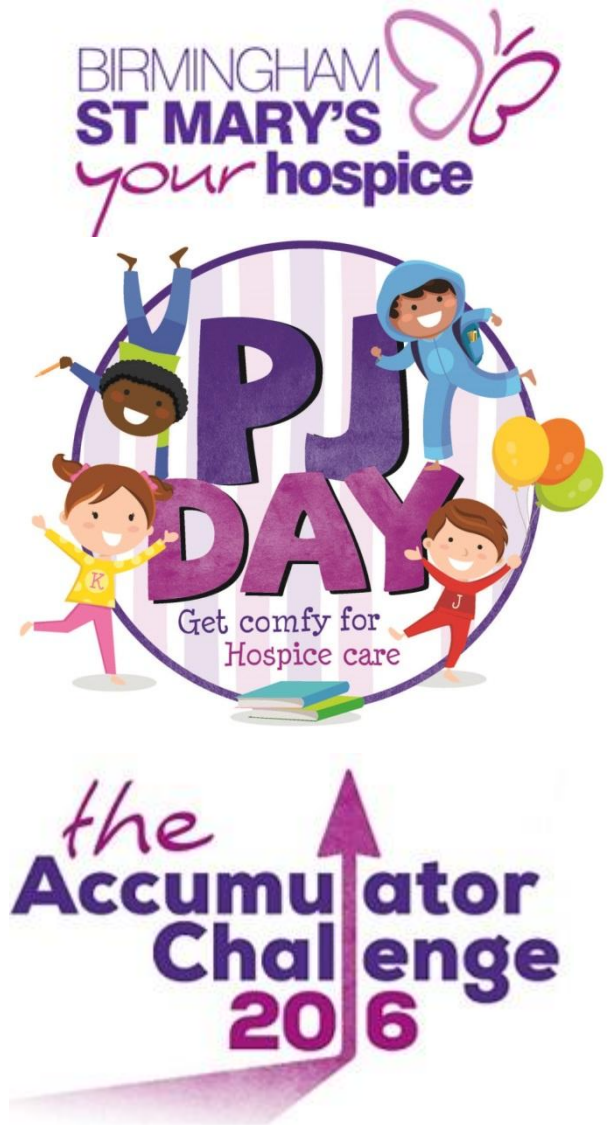

£12.50

is the monthly cost to provide a nurse with a mobile phone to enable them to make vital calls to patients and other healthcare professionals.

£685

pays for a day's palliative care from our doctors and nurses in the in-patient unit.

What do our patients & families say...

“If Birmingham St Mary’s Hospice wasn’t there, I don’t know how we would have coped as a family.”

Steve (Father passed away)

Thank you!
